CAMBRIDGE TELEPHONE COMPANY
Study Area Code 371526

**Notice of Discontinuance of Common Carrier Broadband Internet Access Transmission Service
Under Tariff and Continued Provision of Service on a Permissive Detariffed Basis**

CC Docket No. 02-33

Cambridge Telephone Company currently offers common carrier broadband Internet access transmission service under tariff through the National Exchange Carrier Association (NECA) Tariff F.C.C. No. 5. Cambridge Telephone Company hereby provides notice that the Company has requested from NECA that it remove the Company as a provider of Digital Subscriber Line Access Services under Tariff F.C.C. No. 5, effective July 3, 2018.

Furthermore, Cambridge Telephone Company will continue to provide common carrier wireline broadband Internet access transmission service on a permissive detariffed basis. Cambridge Telephone Company will post the rates, terms and conditions of its broadband Internet access transmission services to its website of www.pnpt.com. The Company will also make physical copies of its offering reflecting the rates, terms and conditions available for public inspection at its business office, at the address provided below:

Cambridge Telephone Company
611 Patterson Street
Cambridge, NE 69022

The discontinuance of Cambridge Telephone Company's offering of broadband Internet access transmission service under tariff, and the continued provision of such service on a detariffed basis, will apply to the entirety of the Company's study area. This includes the following exchanges: Cambridge and Bartley.

Cambridge Telephone Company currently has only one customer for its broadband Internet access transmission service. That customer is the Company's own non-regulated Internet service provider (ISP) affiliate. The Company's affiliated ISP purchases broadband Internet access transmission service for use as an input for the broadband Internet access services it offers to residential and business end-user customers. The discontinuance of the tariffed offering of broadband Internet access transmission service will have no effect on the end-user services provided by the Company's affiliated ISP.

On March 20, 2018, Cambridge Telephone Company furnished its affiliated ISP with the attached memorandum, which notifies the ISP of the Company's plan to discontinue its provisioning of broadband Internet access transmission service under tariff and to continue providing such service on a detariffed basis.
